

As an alternative to traditional insurance products, Direct Dental Alliance offers dental savings plans to help individuals and families get regular preventive and needed restorative dental care.

MEMBERS SAVE 15-70%

For a low monthly rate and pre-determined, discounted fees, members can access a broad network of Colorado-based and National providers. Because member providers use a set fee structure, members know exactly what every visit will cost, and they can feel comfortable knowing that they will be getting care from a quality dental network.

Preventive care is critical to overall well-being, and Direct Dental Alliance offers vision and chiropractic to expand health care savings. Just like our Dental providers, the expanded plans give members access to all of these services for low, pre-determined fees within a wide network of providers.

Members simply find a plan that works for them and sign up as an individual member, a member plus one, or for the entire family. Then, all they have to do is choose a member provider in their area, and schedule an appointment. **It's that easy!**

Dental is a Colorado network with option for a national leased Aetna network.

Vision is accessible nationwide through VSP Vision Savings Pass.

Chiropractic is a Colorado network with option for a national leased network.

**Because this is a savings plan and not insurance, there are:
No waiting periods. No annual maximums. No sign-up fees.**

Monthly rates for plans

Rates and Options	Member	Member + 1	Member + 2 or more
Dental Only	\$12.95	\$19.95	\$27.95
